Approval status

Anchor asset

Start with one article, webinar, case study, or report. Pull out claims, examples, quotes, charts, objections, and practical steps.

Derivative posts

Turn the asset into a LinkedIn post, X thread, Instagram carousel, short video, newsletter snippet, quote card, FAQ post, and sales enablement note.

Governance

Repurposed content still needs approval. Track what changed from the original asset and who approved each derivative.

How to use this resource

Make a copy of the structure, adapt the fields to your team, and review it during your weekly publishing meeting. If a field does not help a real decision, remove it. If a repeated mistake keeps happening, add a field that makes the risk visible.
